MAARA KAI 'GARDEN TO TABLE' PROJECT

Welcome to our Maara Kai *Garden to Table* Project. This project aims to teach Tamariki, whānau and/or schools the skills they need to grow their own vegetable gardens in their backyard. We would like to provide everything required to start and maintain a vegetable garden. Including items like a planter box, potting mix (or trailer load of good soil if making a ground garden at home) garden tools, garden hose, fertiliser, and a variety of vegetable seedlings to start their vegetable garden.

OUTCOMES FOR WHĀNAU and COMMUNITY

We will support each whānau over one or two seasons and keep a visual and/or written diary of their garden experience.

HOW YOU CAN HELP AND ACKNOWLEDGEMENTS

For funders, businesses or individuals that would like to partner or donate materials we will acknowledge your business on our website and publications. For further information or you would like to donate please email tuitrust@hotmail.com
